EXPERIENCE

Teacher Assistant @ Rochester Institute of Technology

AUGUST 2020 - PRESENT / Rochester, NY

Support students in an introduction course to web technologies and industry standards, focusing on Linux, HTML, CSS and JavaScript.

Software Engineer @ bbb Shoes & Boots

MAY 2019 - AUG 2019 / Panama, Panama

Implemented a web based application to amplify productivity by 50% allowing the user to communicate effectively to the storage.

Upgraded the user interface of a previously built web application for a more natural flow through the application.

Social Media Intern @ bbb Shoes & Boots

MAY 2017 - AUG 2017 / Panama, Panama

Photographed and edited products for use in social media and the company's website.

Introduced and developed new creative ideas for the use of more engaging instagram posts, which resulted in an increase of 9% in younger audiences.

PROJECTS

COVID 19 Tracker — Personal Project

Developed a web application to track COVID-19 cases, recovered and deaths around the entire world, showing graphics and tables on information.

swoop — Group Project

Developed a web game promoting relaxation developed and currently working on the finishing touches with the group. The game provides a pane where the user can draw a line and pop colorful dots.

Discord.gg — Personal Project

Developed a discord bot, to allow users to get their League of Legends profile data from discord decreasing the time from opening up in the browser.
